

Klorkleen Pack Formats

Klorkleen tablets are available in 1670 mg tablet size. US EPA registered tablet size and formulation also available. The tablets are presented in a tub with a 2 year shelf life.

How to use Klorkleen

The correct strength of solution is produced by placing a tablet into the following volumes of water:

Use	1 Tablet	Solution Strength
Floors, walls and areas of general disinfection	5 litres of water	200 ppm available chlorine
Food handling/processing surfaces/equipment	10 litres of water	100 ppm available chlorine
High Risk Areas (eg Operating Theatres)	1 litre of water	1000 ppm available chlorine

Note: Responsibility for control and issue of guidelines for disinfection rests with the relevant medical authority and infection control personnel.

What is Klorkleen?

Klorkleen combines a detergent and disinfectant in each tablet making it a multipurpose cleaning and disinfectant tablet. It does two essential jobs in one tablet- powerful disinfectant and thorough cleaning.

Klorkleen kills germs fast & washes thoroughly. Surfaces and utensils are left clean and safe.

What is Klorkleen used for?

- High, intermediate and low level environmental surface disinfection.
- Washing and cleaning surfaces.
- Klorkleen is specially formulated to give safe and easy-to-prepare cleaning and disinfecting solutions, with broad spectrum activity against microorganisms including:
 - **Bacteria:** *Escherichia spp*, *Campylobacter*, *C.difficile*, *E.coli* 0157, *Enterococcus*, *Leptospira*, *Listeria*, **M.R.S.A.**, *Pseudomonas spp*, *Salmonella*, *Staphylococcus*, *Streptococcus*.
 - **Mycobacteria:** *Tuberculosis*.
 - **Fungi:** *Aspergillus*, *Candida* and others.
 - **Spores:** *Clostridium Difficile*, *Bacillus*.
 - **Viruses:** Human Immunodeficiency virus (HIV), Hepatitis B virus (HBV), Herpes, Poliomyelitis, SARS coronavirus, Bird Flu, H1N1 (Swine Flu).

Where is Klorkleen used?

- Klorkleen can be used in a wide range of areas including High level Hospital & Clinic disinfection (eg Operating Theatres and general wards).
- Catering outlets such as Hotels, Restaurants, Bars, Canteens.
- Klorkleen kills *Salmonella*, *E Coli* and *Listeria*
 - Germs lurking in the kitchen, on tables and on floors.
- Sports Clubs, Gyms, Swimming Pools, Hairdressers, Beauty Salons
 - Washing the floor with Klorkleen will eliminate the germs that cause athletes foot.
- Klorkleen complements Klorsept as part of a comprehensive infection control programme.
- Now you can disinfect at the same time as washing at no extra cost or effort.
- Tablets don't leak, spill or splash!
- Tablets are light and safe to handle.
- Klorkleen packs are compact and therefore use little storage space.
- With just one tub of Klorkleen 150 buckets of powerful cleaning and disinfectant solution is achieved.
- Will not stain or leave residue on high gloss floors

Klorkleen Advantages

- Commercial and Industrial.
- Klorkleen is ideal for cleaning/disinfecting surfaces in food and drink processing plants, factories, offices and institutions of all kinds
- Klorkleen kills germs fast and washes thoroughly.
- There is no need to measure , pour out or mix liquids, just drop a Klorkleen tablet in water and it dissolves fast to give the correct solutions.
- Effective against Biofilm
- US EPA registered tablet size & formulation available.
